WORK EXPERIENCE

Nando's **Central London, UK**
Back of the House Oct 2023 – Present

- Key team member while the branch ranked #1 Nando's in the UK; helped achieve a 98% Ops Check by checking the date labels, food quality and cleaning
- Optimised station workflows at peak hours, achieving 6-minute waits against a 10-minute standard
- Trained 5–6 new team members on procedures and best practices

Dutch-Bangla Bank **Sylhet, Bangladesh**
Teller May 2023 – Sep 2023

- Processed daily cash deposits, withdrawals and foreign remittance with 99% accuracy, in line with procedures
- Served 100+ customers daily, resolving issues promptly; balanced cash drawers with zero major discrepancies

PROJECTS

AI Career Guidance Chatbot **GitHub**
Python, Flask, Gemini API, REST API, JavaScript

- Built a full-stack chatbot using the Gemini 2.5 Flash API for real-time personalised career advice
- Designed the RESTful Flask backend that connects the web interface to the Gemini API

Healthcare Management System **GitHub**
Java, Java Swing, MVC, OOP, Git

- Built a Java Swing application using MVC architecture and OOP, with CSV-based data storage
- Implemented role-based access for admin, clinician, staff and patient users across six record types

Yokoo Bicycle Shop **GitHub**
React, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a full-stack bicycle booking system with a user booking/review flow and an admin panel
- Implemented JWT authentication, private routes and order status updates; responsive UI with React Query

EXTRACURRICULAR ACTIVITIES

Alampur Community Clinic **Sunamganj, Bangladesh**
Multipurpose Health Volunteer Oct 2020 – Dec 2022

- Collected data, made referrals and gave community education on maternal and newborn health

Independent IT Support **Bangladesh & UK**
Community support

- Helped 70+ people (40 in Bangladesh, 30 in the UK) with smartphones, social media and troubleshooting
- Supported UK clients with Uber/Deliveroo accounts and appeals, support emails and online applications
